

# RT Complete

**RT Complete offers a comprehensive, customized solution that can:**

- Increase Respiratory Acuity Level
- Maximize Nursing Staff Productivity
- Enhance Revenue Growth Opportunities
- Reduce RT Related Hospital Readmissions

## OUR PROGRAM CONSISTS OF THREE KEY COMPONENTS:

### ■ HANDS-ON, ON-SITE, RESPIRATORY CARE & SUPPORT

This hands-on, on-site, respiratory care & support component offers support with:

- Patient Assessments; Set-up and Follow-up Visits
- Disposable Change-Outs
- Trach Tube Changes
- CPAP/BIPAP; Set-up and Follow-up Visits
- Overnight Oximetry

### ■ ON-SITE & ONLINE CLINICAL TRAINING TESTING & CERTIFICATION

The respiratory training and certification program ensures that your staff operates at maximum capacity, efficiency, and clinical competence. Training is customized to meet your schedule and budget through a combination of on-site and online courses.

- Respiratory Assessment
- Oxygen Therapy
- Breath Sounds
- Tracheostomy Care
- Hand Held Nebulizer Training
- Additional In-Services Available Upon Request
- Suction Technique
- CPAP/BiPAP

### ■ PROGRAM EVALUATION & DEVELOPMENT

The program evaluation and development component of RT Complete allows SMS to collaboratively develop a respiratory program designed to meet your specific needs and objectives.

- Audit of Admission and Readmission History
- Medical Equipment Assessment and Management Plan
- Reimbursement Requirements Analysis
- Resident Population and Needs Analysis
- Staff Capabilities and Turnover Review
- Regulatory Inspection Assistance
- Facility Capacity, Readiness and Expansion Assessment
- Clinical Education Needs
